The board members told him he will be responsible for paying for the whole line extension and the cost of moving the meter. Since the line on Butler Rd will be abandoned, the board talked about adding a flush valve and a shut off valve on Idaho Rd, so the 1 ½ mile of abandoned line won't have water sitting in it.

We found a leak on California Rd north of the church camp entrance by the valves north of the creek. We plan on going out next week when the weather permits trees to cut out of the way so we can get it repaired. 7.)
